

Scenario # _____

Outcome: _____

Score: ____/38

Scenario Evaluation

TA Use Only

Student: _____

Date: _____

Time Limit: 20 minutes

To Pass: all checkbox items and ≥ 2 in all scored sections

Pre-Arrival & Scene Size-Up		<input checked="" type="checkbox"/>
Dons appropriate PPE		
Performs an appropriate scene survey including acknowledgment of safety hazards		
Takes or directs manual spinal stabilization if indicated		
Primary Survey & Resuscitation		<input checked="" type="checkbox"/>
Determines level of responsiveness (AVPU) and obtains consent to treat if alert		
Immediately manages massive hemorrhage if present		
Airway	<ul style="list-style-type: none"> - Assesses airway patency and manually opens airway if indicated - Suctions airway and/or places an airway adjunct if indicated 	
Breathing	<ul style="list-style-type: none"> - Assesses effort and approximate rate of breathing - Immediately recognizes ineffective breathing if present and begins BVM ventilation - Obtains SpO₂ and initiates oxygen therapy for any patient in respiratory distress 	
Circulation	<ul style="list-style-type: none"> - Assesses pulse at appropriate site for no more than 10 seconds - Assesses color, temperature, and condition of skin - Immediately recognizes cardiac arrest if present and begins CPR 	
States transport urgency and/or immediate need for ALS		
Secondary Assessment <i>(Select the highest score completed.)</i>		
History of Present Illness <ul style="list-style-type: none"> - 0: not attempted - 1: obtains an HPI that is incomplete or not aligned with the patient's complaint - 2: obtains a complete HPI using an appropriate standard mnemonic - 3: obtains a thorough HPI structured around the DDX 		
Past Medical History <ul style="list-style-type: none"> - 0: not attempted - 1: obtains an incomplete SAMPLE history - 2: obtains a complete SAMPLE history - 3: obtains a thorough PMHx structured around the DDX 		
Vital Signs <ul style="list-style-type: none"> - 0: not attempted - 1: obtains incomplete vital signs or fails to acknowledge a finding outside of normal limits - 2: obtains complete vital signs (HR, RR, SBP/DBP, Temp, SpO₂) and acknowledges abnormal findings - 3: obtains initial and repeat vital signs and interprets trends within the context of the patient's condition 		
Physical Exam: <ul style="list-style-type: none"> - 0: not attempted - 1: physical exam is incomplete for complaint or performed with poor technique - 2: physical exam is adequate for complaint and performed with proper technique - 3: well-performed physical exam is structured around DDX and integrated into patient assessment 		

Patient Care	
Medical Management <ul style="list-style-type: none"> - 0: orders or performs an inappropriate or harmful intervention - 1: fails to appropriately manage patient's condition and/or reassess patient - 2: completes all required scenario-specific interventions and reassesses patient - 3: confidently manages all aspects of patient's condition and continuously reassesses for changes 	
Provider-Patient Interaction <ul style="list-style-type: none"> - 0: exhibits inappropriate or unprofessional behavior - 1: is impersonal and/or demonstrates limited engagement with patient - 2: maintains professional affect, communicates clearly, and acknowledges patient needs - 3: establishes patient rapport and demonstrates therapeutic communication 	
Patient Reports	
Hospital Radio Notification <ul style="list-style-type: none"> - 0: not attempted - 1: incomplete, disorganized, inaccurate, or over 1 minute in duration - 2: contains all relevant information, is logically organized, and is under 1 minute in duration - 3: contains only the relevant information and is under 30 seconds in duration 	
Handover Report <ul style="list-style-type: none"> - 0: not attempted - 1: incomplete, disorganized, or inaccurate - 2: contains all relevant information and is logically organized - 3: contains only the relevant information organized around the patient complaint and field impression 	
Disposition (evaluator may prompt student for response)	<input checked="" type="checkbox"/>
States appropriate field impression	
States appropriate transport destination and traffic priority with reasonable justification	
Leadership	
Scene and Resource Management <ul style="list-style-type: none"> - 0: compromises safety or acts unprofessionally towards other providers - 1: demonstrates minimal situational awareness or ineffectively utilizes partner(s) - 2: manages scene hazards, delegates tasks appropriately, and requests resources as required - 3: displays continuous situational awareness and utilizes partner(s) to provide collaborative patient care
